****RLYB SCALP SETUP BRIEF**** RLYB is exploding +44% on news that Candid terminated their merger agreement, freeing the biotech from what was likely seen as an unfavorable deal and triggering short covering on the tiny 3M float. The key risk is this appears to be a one-time catalyst pop that could fade quickly without follow-up news, especially given the weak sector momentum score. Look for entries on pullbacks to VWAP or key support levels rather than chasing the current momentum, as the 4+ hour age of the catalyst suggests the initial reaction may be overdone. Watch for any follow-up guidance from management about their standalone strategy or potential new partnerships to sustain momentum.
